Print Manager Plus Receives Award of Excellence from Tech and Learning Magazine

35 outstanding education technology products saluted by prestigious 26-year-old recognition program

The Tech & Learning Award of Excellence 2008

Clearwater, Florida and London, United Kingdom: Print Manager Plus® 2008 Standard Academic by Florida-based Software Shelf International, Inc was one of 35 education technology products presented, last week, with the Tech & Learning Magazine's Award of Excellence.

A panel of more than 30 educators, who tested more than 100 entries at San Francisco Bay Area schools, decided on the winners. "Choosing the finalists was no easy task," said Kevin Hogan, Editorial Director for the Tech & Learning group. "Those companies that passed muster should feel proud of this accomplishment."

The other winners encompassed a wide range of high-quality offerings such as numerous Internet-based programs, software for handheld devices and several special hardware/software combination packages that address management, safety, communication, differentiated learning, and other key areas in education.

"For Print Manager Plus to have been recognised as outstanding education technology and for it to be awarded alongside so many important and influential products is a welcome acknowledgement of Software Shelf's dedicated staff and their work," stated Bill Feeley, Software Shelf CEO.

Tech & Learning, Inc.

For over 27 years, San Bruno, California-based Tech & Learning has been -- and continues to be -- the leading resource for K-12 leaders. Its publications, Web sites, and events provide factual and evaluative information on trends, products, and strategies to educators who purchase technology products in their districts and schools. Tech & Learning delivers the highest quality content and essential resources to manage, train, and teach technology. For more information, visit www.techlearning.com

About Software Shelf
